August 8, 2008

Dear Community Leader,

September is National Preparedness Month. The Orange County Health Department has partnered with Orange County Emergency Services to sponsor an emergency preparedness campaign in September to encourage individuals and families to prepare for disasters. We need your help in spreading the word about the importance of having a household emergency plan and 72-hour disaster supply kit.

Please join us in September for our ***Get a Kit, Make a Plan Emergency Preparedness Workshop*** (see attached flyer). We want to educate community leaders who can in turn talk to community members about the importance of making a disaster plan. During the workshop, the new Emergency Services Director, Frank Montes de Oca, will talk about disaster preparedness. Participants will receive a **free** toolkit with materials that can be used to promote emergency preparedness throughout the year.

Our 2007 Community Health Assessment data showed that many Orange County residents were not prepared for a disaster. You can help us change this by promoting individual and family disaster planning within your organization, community, and home. To attend the emergency preparedness workshop, please return the attached registration form by September 1st. You can also register by contacting Candice Watkins Robinson at 919-245-2462 or cwatkins@co.orange.nc.us. Please don't delay; registration is limited to 30 people.

Thank you,

Rosemary L. Summers, MPH, DrPH
